## How do you know if you are making the best better?

I was a 4-H member from 1st grade until my Senior year. During that first year, my projects were flowers and arts and crafts. I also had really big hand writing. Do I remember these details? No, but I still have my 4-H record book and it has been useful for me, even as an adult.

When my daughter was in elementary school, she had an assignment to ask a parent what they remember about third grade. I reviewed my record book and 4-H story... it was the year we hosted a LABO exchange delegate who taught me origami. This was a fun fact to share since my daughter was also enjoying paper folding.

Completing a 4-H record book helps a youth member set goals and motivates them to practice citizenship and leadership skills.

These skills help members when they are applying for jobs, college admissions and scholarships. Check out this [webpage](#) with video links about the new Z Books online record keeping system. Adults need to set it up and then let your youth do the rest!

Another benefit of 4-H membership is member achievement recognition pins. There are 9 achievement categories. The awards/pins may be awarded at the conclusion of the 4-H year. Each pin has required and optional tasks. Youth can receive a pin only once and may only receive one achievement pin in a 4-H year.

Cowley County 4-H members interested in achievement pins must complete and submit a Kansas Project Record that includes a personal page, Kansas Project Record form with reflection story and photos and permanent record for screening.

The process of completing 4-H record books and achievement pins does require the effort of at least one adult and the 4-H youth. Consider reviewing and noting project accomplishments before or after your monthly 4-H meeting. Review the 4-H Achievement pin application early in the 4-H year so you can identify which optional requirements make sense for your family. Check out the options here: [4-H member achievement pins](#).

You can make the best better and completing a 4-H project record will help you recognize your impact!

## **4-H Junior Leaders and older 4-H Youth**

The USDA APHIS (Animal and Plant Health Inspection Service) would like to spread the word about a summer Outreach program they sponsor, that would be an incredible experience for young adults from Grades 7 to 11. 21 Universities work with USDA to offer middle or high school students a unique summer experience.

Students get to spend 2 to 4 weeks at a University exploring the field of Agriculture. There is NO cost for Tuition, room and board, activities or meals! The only cost is for travel to and from the University campus.

Due to the Coronavirus crisis, some Universities are planning on hosting virtual events; therefore, there would be no cost for travel. Each University offers different opportunities and activities that correlate to Agriculture in that region of the United States.

Visit the website for more information including program dates, focus areas and eligible age groups:

<https://www.aphis.usda.gov/aphis/ourfocus/civilrights/agdiscovery/agdiscovery-program>

## **YQCA training**

Youth for the Quality Care of Animals (YQCA) is a national, multi-species youth livestock quality assurance program that focuses on food safety, animal well-being, and character development, through age-appropriate educational curriculum for youth 8-21 years of age. This program is an annual certification that grows with a young person, so the learning modules are different every year. Curriculum materials were launched in October, and youth are welcome to begin completing the training at any time.

**ALL exhibitors are required to be YQCA certified in order to participate in the 2022 Kansas State Fair Grand Drive and/or Kansas Junior Livestock Show (KJLS).** This includes youth who will be showing market animals and breeding females. The YQCA certification covers a variety of species, so youth only need to complete one certification session to fulfill the requirement. Youth who are age 7 may participate in an instructor-led course and a parent or guardian will need to attend the training with them. The parent/guardian will not officially register, as this is a youth-only program. The parent/guardian will attend to serve as a guide for their child during the training, and because of the level of involvement first-year parents have in projects to help their child have a positive experience.

Youth ages 8-21 may obtain their YQCA certification using one of the following methods:

**Online Course - \$12/child**

**Test-Out Option – only 12 & 15 year olds eligible; online only; cost varies**

Families must pay for the online class through the site at the time of registration. It will require a credit card number or coupon code.

**In person options** are hosted by Butler County. Contact Sarah ([slag11@ksu.edu](mailto:slag11@ksu.edu)) for more information.

Click on this link for directions on how to obtain certification:

<https://www.asi.k-state.edu/research-and-extension/youth-programs/GettingYourYQCAILTCertification20.pdf>

All 4-H volunteers must enroll annually in the unit in which they serve and complete the following initial steps: 4-H Online profile, References, Criminal History, Interview, Orientation, and Approval. In concurrent years, all 4-H volunteers renew their volunteer commitments annually through the 4HOnline system in a similar process to annual youth enrollment. Volunteers are asked to confirm contact information, specify their volunteer role(s) for the year, update their information, and participate in on-going training as expected by the state, county, or district program.
